

Welcome to our restaurant on the 19th floor.

An evening at Syv Ni 13

The concept is simple, nordic social dining, where the food is served to share on big plates. The different dishes are tasted together as they are presented at the table, in a pace that suits you, and in the order recommended by the Chef. The menu is set, so all you have to do is sit back and enjoy an experience of seasonal flavors, that has taken inspiration from all over the world.

A la carte for lunch

The lunch menu will give you a taste of both the nordic presentation style and flavors. Because have you really been to Denmark, if you haven't had a 'Kartoffelmad'? For lunch, you get to choose your own dishes from the a la carte menu. And you only have to share with your partner, mom or dad-in-law, if you want to.

The building TRÆ

We might just have said as much, but TRÆ is not just a building. At 78 meters, it is the tallest structure primarily made of wood and upcycled materials in Denmark. The windowshades are produced from discarded wind turbine blades, the flooring is a byproduct of the timber industry, and the facade consist of aluminium panels from the construction industry, that would otherwise have been discarded. Every choice made in the construction process has been carefully considered, resulting in a more circular building, with a significantly lower CO2 emission. It is an ambitious and forward thinking place, fostering community amongst the floors and throughout the neighborhood, with volunteer organisations and events.

Sydhavnen, the area

At the end of Jægergårdsgade, Sydhavnen is transforming. A place where old meets the new, and cultures merge. The plans for the area are ambitious, and within a few years, Sydhavnen will be the new home of two hotels, the music venue TRAIN, educational institutions, restaurants, office spaces and much more. It is an extension of the Aarhus city center, with it's own identity and history, and a community we are proud to be part of.
